★ AUG 17 1962 ★
U. S. Department of Agriculture

HOLLAND, MICHIGAN

Plant America!

QUANTITIES AND PRICES: 25 or more plants of a variety or color sell at the 100 rate; 10 to 24 plants of a variety or color sell at the 10 rate. Due to the high cost of handling small quantities 10c must be added to the cost of each plant at the 10 rate for 5 to 9 plants of a variety. We cannot ship less than 5 of a variety or color.

We will be glad to quote prices on larger quantities.

All stock is carefully packed in wire bound crates with moist sphagnum on roots and excelsior protecting foliage with proper labelling and separation of varieties, for which a nominal charge will be made based on actual cost of material used. Free packing for payment in advance of shipment.

TERMS: Net 30 days; 2% discount 10 days from date of shipment. **Free packing in addition to 2% discount for cash with order of $10.00 or more.**

SHIPPING: All shipments made F.O.B. Holland, Mich. Customer pays carrier for transportation charges. In case no instructions are given, we will use our judgment as to best carrier, but without any responsibility on our part.

All goods travel at purchaser's risk. Our responsibility ceases when goods are delivered in good order to the carrier. Claims for damage or delay in transit should be filed immediately with the delivering carrier. We are ready to render assistance with the preparation of a claim should you so desire.

Small orders will be sent by parcel post if this is cheaper, in which case postage will be billed to the customer. However, Orders Accompanied by Cash **cannot** be sent by Parcel Post unless sufficient postage charges (about 15% of order) are included with remittance.

AIR FREIGHT SERVICE for extra fast shipment at nominal cost.

Air Freight is a decided advantage where distances are great and surface carriers are too slow. The plants are specially packed bare-root in polyethylene lined crates to save weight. No other packing material is needed because the poly preserves the plants perfectly. Packed in this manner the weight ratio is 7 to 10 plants to one pound. Shipments picked up on Monday, for example, should be delivered to any main Air Port City within the United States mainland by the following Tuesday or Wednesday, no later.

PICKUP SERVICE: Due to the spread of our Nursery fields it is impossible for us to fill orders, without prior notice, for visiting customers. If you are planning on making a personal pickup during the shipping seasons, please place your order in advance so it can then be processed in our usual, expert manner and ready to pick up when you call.

WHOLESALE ONLY: All orders from new customers must be written on business letter heads or must include a State License number for operating a business of a horticultural nature.

We aim to give you QUALITY, SERVICE and VALUE.

WELLER'S BETTER PERENNIALS

with that Wonderful Root System

For Fall 1962 and Spring 1963 Delivery

We take pleasure in presenting our extensive listing of quality Perennials grown and packed with expert care in our own Nurseries in Michigan. Perennials have been our specialty for 50 years during which time it has always been our aim to provide the very finest plants.

New to our list are PEONIES, CLEMATIS VINES, and ERICA. Items of outstanding merit are HARDY PRIMROSES, ASTILBE, BLEEDING HEARTS, PHLOX and CREEPING PHLOX, GYPSOPHILA PINK FAIRY, LAVENDER, BOXWOOD WELLERI, PACHISTIMA and TREE PEONIES. Also we offer one of the largest collections of SEDUMS AND SEMPERVIVUMS available anywhere plus other ground covers such as POLYGONUM, THYME, VINCA, AJUGA, PACHYSANDRA and ORNAMENTAL GRASSES.

Our plants are grown in wide spaced rows in rich sandy loam soil for fullest root development. Portable irrigation and large ponds ensure full growth during the hot dry months of summer. Varieties are carefully kept straight. For shipment the plants are carefully graded, foliage trimmed, and packed. Although it is more work for us, we emphasize careful trimming of the foliage in order to provide you with the healthiest and most vigorous roots—a plant which can be shipped with a very minimum of damage and which will re-establish itself in the shortest time.

LARGER COLD STORAGE FOR BETTER SPRING SERVICE.

Cold storage and freezing has become so useful and successful under our experienced methods that we quadrupled our capacity this summer to give you even better service and better plants. You will be pleased by the superior quality of such plants. Many more plants in storage means that more orders can be shipped promptly instead of being delayed by poor digging weather. Also more plants can be safeguarded against winter kill and damage in the fields — a common problem for wholesale nurseries. In this way our larger storage makes more certain that the plants you ordered are alive and saleable in spring when they need to be shipped. Orders still should be placed as early as possible to ensure obtaining all plants wanted. Large orders for early spring delivery should be placed before October 15 so we can make sure to have all your plants dug and placed in cold storage.

Weller's Fine Hardy Perennials

TOP QUALITY PLANTS

Our plants are all fully developed, heavy material with wonderful thick root systems. All plants are two year old transplants, unless otherwise specified. Biennials are one year old.

	Per 10	Per 100
